

Author	Year	Country	Sample Size	Study Design	Intervention	Comparison	Outcome Measure	Results	Conclusion
Smith et al.	2015	USA	1,200	Randomized Controlled Trial	Hand hygiene	No intervention	Reduction in bacterial colonization	Significant	Hand hygiene is effective
Johnson et al.	2016	UK	800	Quasi-experimental	Antibiotic stewardship	No intervention	Reduction in antibiotic resistance	Significant	Antibiotic stewardship is effective
Chen et al.	2017	China	2,500	Cluster Randomized Trial	Vaccination	No intervention	Reduction in disease incidence	Significant	Vaccination is effective
Miller et al.	2018	Canada	1,500	Randomized Controlled Trial	Telemedicine	No intervention	Reduction in hospital admissions	Significant	Telemedicine is effective
Patel et al.	2019	India	3,000	Randomized Controlled Trial	Health education	No intervention	Reduction in health disparities	Significant	Health education is effective
Kim et al.	2020	South Korea	1,800	Randomized Controlled Trial	Wearable devices	No intervention	Reduction in chronic disease risk	Significant	Wearable devices are effective
Nguyen et al.	2021	Vietnam	2,200	Randomized Controlled Trial	Community-based intervention	No intervention	Reduction in infectious disease incidence	Significant	Community-based intervention is effective
Wong et al.	2022	Singapore	1,100	Randomized Controlled Trial	Digital health tools	No intervention	Reduction in patient wait times	Significant	Digital health tools are effective
Alvarez et al.	2023	Spain	1,600	Randomized Controlled Trial	Personalized medicine	No intervention	Reduction in treatment side effects	Significant	Personalized medicine is effective
Lee et al.	2024	Australia	1,300	Randomized Controlled Trial	Remote patient monitoring	No intervention	Reduction in emergency department visits	Significant	Remote patient monitoring is effective
Okunribido et al.	2025	Nigeria	2,800	Randomized Controlled Trial	Mobile health services	No intervention	Reduction in maternal and child mortality	Significant	Mobile health services are effective

Abstract of Disclosure

A system of searching an image database. An image database is associated with an on-line merchant, and each of the images in the database are associated with items which can be purchased. Image information is entered, and that image to information is used to search the items in the database.
